Profoto battery performance for the road

At the upcoming Photokina trade fair, Profoto will launch a breakthrough battery flash generator, the AcuteB, setting new standards for lightweight, portable flash equipment.

Comparing to our highly popular battery generators the Pro-B2 and the Pro-7b, the new AcuteB 600 generator measures only 19 x 19 x 13 cm, including the handle, and weighs a mere 4.9 kg. Still, it features a maximum output of 600 Ws and a power range of 7 f-stops. And it holds – per battery – up to 160 full power flashes. That's a lot of flash power in a very small and portable package.

Optionally, the generator also includes a built-in radio sync unit, compatible with the PocketWizard system. The AcuteB 600 generator, charger and lamp head, plus a Reflector, a tripod and a bag, will be sold as a kit.

AcuteB 600R Specifications:

| | |
|------------------------|--|
| Auto dumping: | Yes. |
| Battery: | 12 V 5 Ah. |
| Battery Indicators: | 1/1, 1/2, and 1/4 indicators. |
| Charging Time: | 5 hours (Standard Profoto Charger 1A) 2.5 hours (Profoto Charger 2A) |
| Energy: | 600 Ws f-stop at 2 m with Magnum 50° reflector 64.2. |
| Energy Control: | Over an seven f-stop range. |
| Energy Range: | Ws: 600 150 37 9 F-stop: 1/1 1/4 1/16 1/64 Ev: Max -2 -4 -6 |
| Energy Precision: | 1/75 f-stop flash to flash. |
| Flash Capacity: | Ws: 600 150 37 9 Energy: Max -2 -4 -6 Flashes: 160 600 2 000 8 000 |
| Flash Duration (t0,5): | Ws: 600 150 37 Time: 1/1 000 1/2 700 1/6 800 40 A. |
| Fuse: | 40 A. |
| Lamp Head Socket: | 1 socket. |
| Modelling Light: | 65 W continuous modelling light. |
| Radio: | Optional built-in Radio with 32 channel |
| Radio Range: | Up to 100 m. |
| Recycling: | 0.09–2.6 s. |
| Sync Outlets: | 1 outlet. |
| Sync Voltage: | Compliant to ISO 10330 Standard. |
| Size W x H x D: | 19 x 19 x 13 cm including handle (7.5 x 7.5 x 5 inches). |
| Weight: | 4.9 kg, including battery (10.8 pounds). |
